2.4. WEMBLEY PARK (URBAN DESIGN: PLACE MAKING MODULE, UCL, LONDON, UK 2022)

SITE ANALYSIS

The project's aim was to analyse London's Wembley Park area in the six urban design dimensions of temporal, perceptual, visual, morphological, social, and functional.

SOCIAL DIMENSION ANALYSIS:
EQUITY & SPATIAL SEGREGATION - A BUBLE ENCLAVE

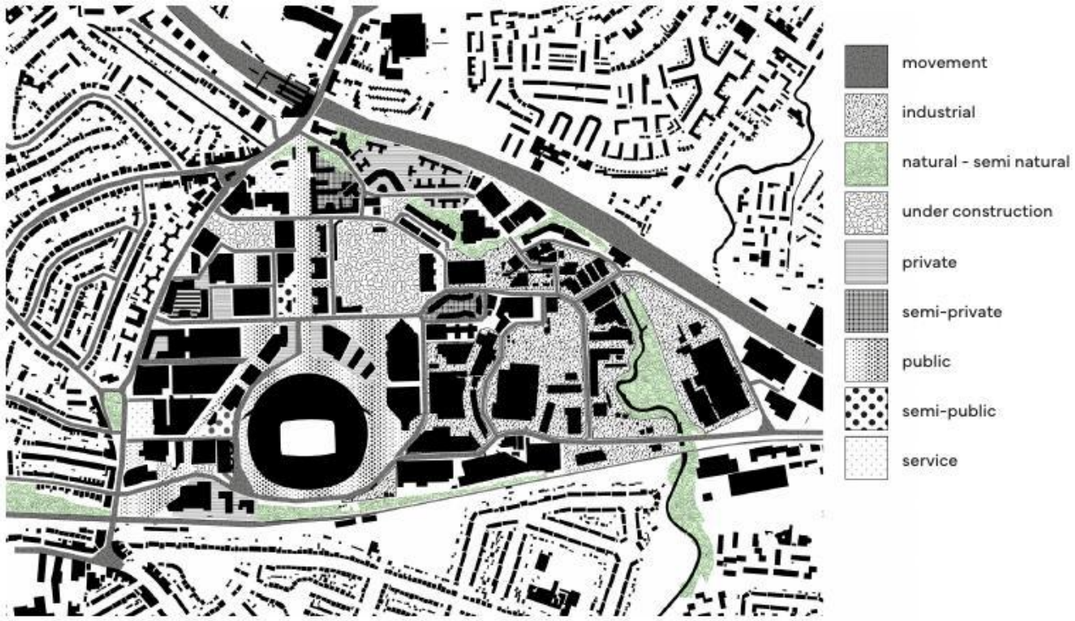

Figure 2.10: map showcases the social dimension of the place based on Carmona (2021) design dimensions

WEMBLEY PARK & THE GREATER BRENT AREA

- New huge and luxury residential blocks are located inside Wembley Park
- Distinct difference compared to the older, smaller, and dense house units in the greater Brent area outside Wembley Park

BETWEEN INDUSTRIAL AREA & REDEVELOPMENT

- Better organised streets and development outside the industrial area
- Industrial area is separated from the main commercial area and the high streets (Olympic Way and the Boulevard)

PRIVATE/PUBLIC & EQUAL ACCESS TO GREEN SPACES

- The newly developed residential blocks and related spaces and facilities are mostly gated from public
- Public spaces are concentrated near the commercial and institutional areas such as the Boulevard, the OVO Arena, and the Civic Centre
- Public green spaces are limited in the inner Wembley Park Green spaces are in private and gated residential podiums and podiums areas

Figure 2.11: diagrams representing each type of spatial segregation

My role was to work on the social, visual and temporal dimension mostly. As a group we developed the report altogether. This report has 27 pages.

DESIGN CONCEPT

The project's aim was to transform from the entertainment hub to an integrated, green community-building space.

Figure 2.12: vision diagram collage

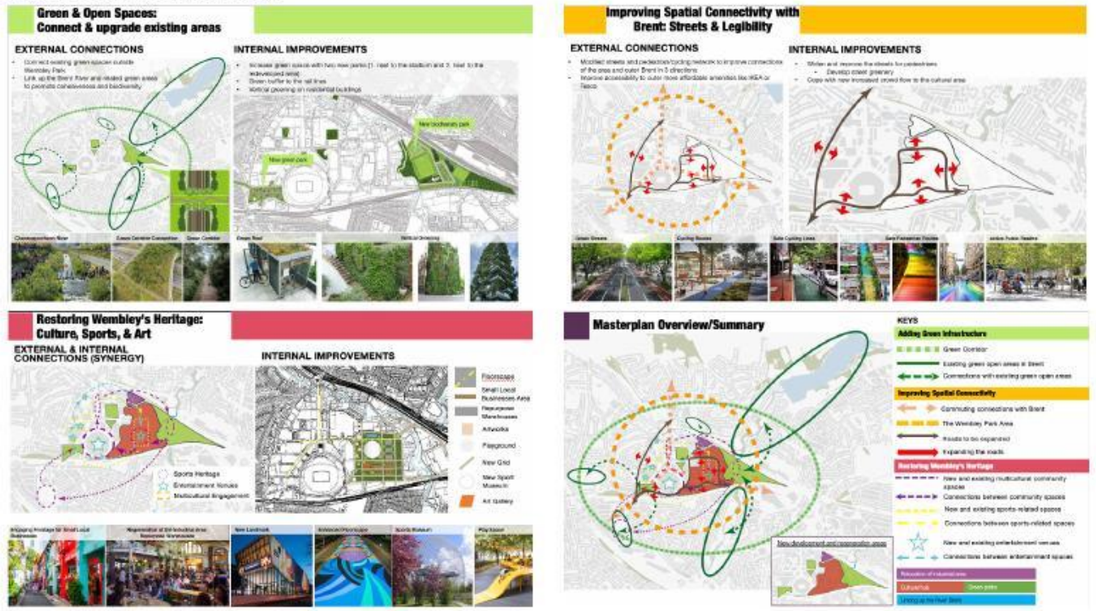

Figure 2.13: slides show the spatial integration ideas based on the vision

My role in this part was to develop visual diagrams in Photoshop and to deliver the presentation most of the time. Throughout the Vision creation process, the entire group was involved, and we all agreed on the changes we wish to make to Wembley Park. This report has 12 pages.
